

Yongbae Hong

Full Stack Web Developer

Email: codingyongbae@gmail.com | Portfolio: github.io/portfolio/

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frontend:** React, Next.js, Tailwind CSS, Redux, Responsive Web Design
- **Backend & Databases:** Node.js, Express, MongoDB, MySQL, RESTful APIs, Socket.io
- **Tools & DevOps:** Git, GitHub, Docker, Expo, npm, Linux

TECHNICAL PROJECTS

Mertier: Job Finder Web Application (MERN Stack) | [GitHub Link](#)

- Architected a full-stack, dynamic job board application featuring user authentication, job posting workflows, and a responsive search interface.
- Built dynamic filtering components with React and Express to handle complex queries across thousands of mock job listings.
- Optimized backend REST API endpoints to reduce data payload sizes and improve client-side rendering speed.

Community Chat: Real-Time Chat App (MERN & Socket.io) | [GitHub Link](#)

- Developed a scalable, real-time messaging application supporting instant user interaction, room creation, and photo-sharing capabilities.
- Implemented event-driven architecture using **Socket.io** to manage persistent, low-latency bidirectional communication.
- Integrated image uploading and optimized state updates to ensure smooth rendering.

PROFESSIONAL EXPERIENCE

Hanjin BestPac Co. Ltd. — Logistics Team Lead | April 2025 – Present

- **Operations & Inventory:** Direct a 3-person team executing the secure packing, containerization and precise physical inventory tracking of household goods for U.S. military relocations.

- Risk Mitigation & Client Relations: Minimize corporate liability by meticulously documenting pre-existing property damage, while providing front-line customer service to ensure client trust during high-stress transitions.

The LastMile (CTE Coding) — *Teaching Assistant* | Feb. 2019 – May 2022

- Boosted student engagement and code comprehension by orchestrating live-coding demonstrations and troubleshooting full-stack (MERN) bugs in real time.
- Accelerated student success metrics by authoring targeted technical documentation and supplementary learning resources for struggling peers.

Healthcare Facility Maintenance — *Environmental Services Technician (EVS)* | May 2022 – Jan. 2024

- Managed facility sanitation and chemical safety protocols under strict regulatory guidelines (OSHA, CDC).
- Demonstrated strong self-management and operational agility in high-pressure environments, consistently exceeding room-turnaround metrics.

EDUCATION & CERTIFICATIONS

- **The LastMile** – Web Development Fundamentals & MERN Stack Certificate
- **College of the Redwoods** – A.A. in Behavioral Sciences
- **TPC Training Certificate** – Custodial Maintenance & Chemical Safety (Units 151, 451–455)

LANGUAGES

- **English:** English: Native | TOEIC: 945/990 (June 2026)
